ROLF SELAS

CURRICULUM VITAE | Application Management - Information Governance - Software Development

Application Management | Software Development | Information and Records Governance

Oslo region, Norway - +47 994 47 133 - rolfselaas@gmail.com - github.com/rolfss

Professional profile

Application manager with substantial technical and records-management experience in Norwegian public services. Combines computer science, UX, information governance, systems integration, service delivery and practical software development with analytical and communication skills from the humanities. Leads cross-organizational improvement work and helps translate legal and technical requirements into reliable, usable services.

Professional experience

Sykehuspartner HF - Application Manager

August 2024-present | Regional service management and professional leadership

- Manage Public 360 for approximately 11,000 users in 11 health trusts in South-Eastern Norway, alongside regional responsibility for eFormidling, the public-sector digital message-exchange service.
- Handle application administration, integration monitoring, metadata, roles and permissions, access control, information protection, second- and third-line incident investigation, and cooperation with IT operations, subject experts and suppliers.
- Led testing for the Public 360-Microsoft Teams integration. Coordinate upgrades, testing, changes, problems and incidents using Service Manager, and contribute to the competitive procurement of a new regional case and records-management platform.
- Work with integrations between records management, HR systems, Microsoft 365, digital public services and Digdir's Integrasjonspunkt. Develop or help design automation, metadata tools and low-code/no-code workflow improvements.
- Lead Arkivhelsesjekk, a regional working group of experienced records managers and advisers representing all 11 health trusts. Coordinate quality checks, shared guidance and professional improvement ahead of the planned 2027 records-system transition.
- Develop training material and deliver courses, presentations and individual guidance on Public 360, records management and compliant information workflows. Have delivered approximately 25-30 group sessions and more than 150 individual or small-group training sessions.
- Responsible for communicating the records-management discipline at Sykehuspartner's internal professional days, an event with approximately 2,000 participants, including exhibition activities, presentations and supporting materials.

Agder County Municipality - Adviser, Information and Records Management

June 2023-August 2024

- Administered Public 360 and internally developed IT services; delivered user support, courses, documentation and workflow improvements.
- Owned requests for digital ACOS Interact forms from requirements interviews through design, scripting, testing, quality assurance and integration into Public 360.
- Prepared and maintained the county's records-management plan and retention/disposal schedules, mapping business processes, systems, information assets, responsibilities and legal obligations.
- Contributed to initiatives involving automation and artificial intelligence in records management.

Nedre Romerike Fire and Rescue Service - Consultant

October 2022-February 2023 | Temporary assignment through Adecco

- Combined front-line service and records management in Elements and DM Brann.
- Responded to public enquiries about property and fire safety records and maintained physical archive material.

Nittedal Municipality - Records Officer

July 2022-October 2022 | Temporary assignment through Adecco

- Worked in the municipal records centre using Public 360, incoming correspondence and Altinn.
- Quality-checked the public correspondence journal before publication and assisted employees with records systems and document handling.

Karmøy Municipality - Specialist Consultant / Library Branch Manager

April 2021-May 2022

- Independently managed day-to-day operations at Skudeneshavn Library, including administration, user services, information retrieval and digital library systems such as Bibliofil and Oria.
- Designed and delivered reading groups, literary events, courses and school visits. Used Microsoft 365, WordPress and digital communications tools to promote and coordinate services.
- Initiated new literature and community programmes. Local news coverage.

Norwegian Mapping Authority (Kartverket) - Systems Developer

August 2020-November 2020

- Developed and maintained automated Geosynk services integrating data from other public agencies into the national mapping authority's databases.
- Worked with Python, PostgreSQL, data migration, standardization, Linux, Windows, Bitbucket, Jenkins, Confluence and Deegree.

Earlier professional experience

- Oslo Municipality / Ammerud Farm - Support Worker | August 2018-March 2019. Supported people with disabilities in daily activities and individual follow-up, part-time and on temporary assignments.
- Verbum Publishing - Researcher / Intern | January-July 2017. Located, assessed and documented sources for published books, including works about Aslak Bolt's Bible and a Bible quiz book.
- Café Ibsen / Grimstad Municipality - Harbour Attendant and Ticket Officer | June-July 2016. Ticketing, guest services, harbour oversight and maintenance.
- Scandic Hotel Grimstad - Housekeeping Assistant | June-July 2015. Guestroom cleaning and operational maintenance.
- Brockwood Park School / The Krishnamurti Centre, England - Staff Member | January-July 2014. Reception, guest services, food preparation and facilities support in an international educational environment.
- Sørlandet Hospital, Arendal - Support Worker | June-July 2013. Activities and support for patients in a psychiatric ward.
- Steiner School, Arendal - Assistant | March-June 2011. Student support, food preparation and facilities duties.
- Schools and kindergarten in Grimstad - On-call Substitute | January 2011-December 2013. Teaching support and supervision at Grimstad lower secondary school, Fjære primary school and Alven kindergarten.
- Grimstad Municipality - Homework Tutor and Support Contact | September 2010-June 2012. Academic support and social activities for young people.
- Odden Bistro - Restaurant Staff | October 2009-June 2011. Food preparation, customer service, tills, opening and closing duties.

Education

Norwegian University of Life Sciences (NMBU) - Sustainable Economics and Management

July 2026-present | Part-time, ongoing

Studies in management, economics, organizational decision-making and sustainability.

Oslo Metropolitan University (OsloMet) - One-Year Programme in Records Management

August 2021-August 2023 | Part-time across two years

Digital records management, Noark, process and task analysis, retention and disposal, legal requirements and archival governance.

Norwegian Vocational Academy - Cloud Administration with Microsoft Azure and Microsoft 365

September 2021-May 2022

Completed three of four examinations, equivalent to 3 ECTS credits. Continued self-directed professional learning through Microsoft Learn; details below.

University of Oslo - Bachelor's Degree in Informatics

August 2018-December 2019; additional project in spring 2020

Software development, Python, Java, PostgreSQL, algorithms and data structures. Approximately 40 ECTS credits in UX/HCI. Additional 20-credit software engineering project in spring 2020: an Android drone-planning application written in Kotlin with API integrations; project had no final grade due to the COVID-19 period.

University of Oslo - Master's Degree in European Culture, specialization in History of Ideas

August 2016-December 2018

Advanced analysis, source criticism, academic writing and independent research. Master's thesis on Teresa of Ávila's use of Augustine. Exchange studies in Spanish at Universidad de Alcalá, Madrid (August 2017-January 2018).
Read master's thesis.

University of Oslo - Bachelor's Degree in History of Ideas

August 2014-June 2016

Bachelor's thesis on Julian of Norwich; grade A.
Read bachelor's thesis.

Additional education: One-year psychology studies, University of Oslo (August 2012-May 2013); health and fitness training, University of Agder (January-May 2012); one semester of literary studies, University of Oslo (August-December 2011); general academic upper-secondary qualification, Dahlske School (August 2007-June 2010).

Technical skills and professional practice

- Software and data: Python, PostgreSQL, SQL, APIs, data integration and migration, scripting and automation. Academic/project work with Java, Kotlin and Android.
- Enterprise applications: Public 360, eFormidling, Digdir Integrasjonspunkt, Elements, ACOS Interact, Microsoft 365, Teams and Service Manager.
- Systems and development tooling: Linux, Windows, Bitbucket, Jenkins, Confluence, Deegree, UX/HCI methods, testing, documentation and service processes.
- Information governance: Noark, records appraisal and retention, metadata, access controls, sensitivity/classification, digital correspondence, records legislation and information quality.
- AI and modern tools: AI-assisted development, Copilot, source-grounded retrieval applications, document-analysis prototypes, cloud AI services, low-code tools and automation.

Continuing professional development - Microsoft Learn

January 2023-September 2026: 71 completed modules and 16 completed learning paths, with a total listed module duration of 51 hours, 13 minutes. This is training, not a claim of formal Microsoft certification.

- Azure, infrastructure and automation: cloud architecture, compute, networking, storage, monitoring, governance, cost management, Azure CLI, PowerShell, Azure Resource Manager and JSON templates.
- Microsoft 365 administration: tenants, licensing, accounts, groups, domains, DNS and client connections.

- Security and identity: authentication, access management, Microsoft Entra ID / Azure AD, compliance, Microsoft Defender and Microsoft Sentinel.
- Data platforms: relational and non-relational data, analytics, warehousing and streaming.
- Azure AI: machine learning, natural-language services, speech, computer vision, OCR, document intelligence and knowledge mining.
- Generative AI and agents: Microsoft Foundry, model selection and deployment, evaluation, prompt engineering, retrieval-augmented generation (RAG), fine-tuning concepts, MCP, tools and agents.
- Copilot and low-code development: Microsoft 365 Copilot agents, SharePoint, Power Platform and AI-assisted software development.

Completed learning paths (16):

1. AZ-104: Prerequisites for Azure administrators.
2. Azure Fundamentals: Describe Azure management and governance.
3. Azure Fundamentals: Describe Azure architecture and services.
4. Microsoft Azure Fundamentals: Describe cloud concepts.
5. MS-102 Configure your Microsoft 365 tenant.
6. Microsoft Security, Compliance, and Identity Fundamentals: Describe the capabilities of Microsoft identity and access management solutions.
7. Microsoft Security, Compliance, and Identity Fundamentals: Describe the concepts of security, compliance, and identity.
8. Microsoft Azure Data Fundamentals: Explore non-relational data in Azure.
9. Microsoft Azure Data Fundamentals: Explore relational data in Azure.
10. Microsoft Azure Data Fundamentals: Explore core data concepts.
11. Microsoft Azure AI Fundamentals: Explore document intelligence and knowledge mining.
12. Microsoft Azure AI Fundamentals: Explore computer vision.
13. Microsoft Azure AI Fundamentals: Get started with artificial intelligence.
14. Develop generative AI apps in Azure.
15. Introduction to generative AI.
16. Enhance your productivity with prebuilt Microsoft 365 Copilot agents.

Additional courses: Shared Reading and reading services (2021); social-media marketing (February 2018); search and rescue field training (June 2009).

Selected independent projects

- Noark 5 Assistant: Source-based search and guidance for Norwegian archival standards and legal requirements.
- MetaReady: Information governance, metadata quality and AI-readiness assessment.
- Archive Assist: Document-content analysis, editable titles and metadata exports with review controls.
- Arkivmuseet: Interactive museum illustrating the significance of trustworthy public records and leadership decisions.
- Second Rolf: Local conversational AI experiment.
- Fjordsprint: Interactive 3D game combining driving and records-management scenarios.

These are independent portfolio projects and not products of my employer.

Leadership, voluntary involvement and other activities

- Fagforbundet, Agder County Municipality - Chair, Office and Administration Occupational Section | January-August 2024. Organized member meetings and communicated workplace concerns and improvement proposals.
- Ebla Student Bookshop - Public Relations Coordinator | January-June 2018. Prepared presentations, posters and communications.
- Various volunteer and political roles during university studies | January 2016-December 2019.
- Dahlske School - Editor of graduating students' magazine | January-April 2010.

- Volunteered with Hove Festival, Grimstad Short Film Festival and Natur og Ungdom | June 2009-June 2012.

Languages and additional information

Norwegian: Native. English: Highly proficient, spoken and written. Spanish: Good working proficiency, spoken and written. Driving licence: Category B.
